

A GLOBAL ALLIANCE FOR THE FUTURE

< Acclivis and P3 Group, Germany, entered into a strategic partnership to drive the future through innovation, scale, and collaboration.

Create Future Impact

Acclivis P3 stands at the intersection where technological expertise meets business to create sustainable impact.

We are more than just a consulting firm; we are a dynamic partnership of technology, software, and consulting. Our goal is not just to provide real, actionable progress. Through our deep technical understanding of complex challenges, we are actively shaping the future.

Standards Redefined

At P3Acclivis, we build bridges between technology, software, and consulting to practice “business as unusual.”

Our approach is driven by the deep conviction that true progress emerges from the interplay of different disciplines. We foster a culture characterized by a “doer” mentality, where we act as implementers and supporters. Together with our clients, we are ready to drive new ideas and innovations forward – from the initial concept to the final rollout.

Acclivis Core Offerings

Systems Engineering

Transforming Complexity:
How Systems Engineering
Drives Efficiency and
Innovation. Unifying
Strategies for Tomorrow's
Technological Challenges.

Embedded Technologies

Our embedded
technologies are at the
forefront of innovation,
providing compact,
powerful, and energy-
efficient solutions tailored
for robust performance in a
multitude of applications.

Machine Vision

Leveraging advanced
machine vision capabilities,
Acclivis Technologies
delivers precise and
automated image-based
inspection and analysis for
enhanced quality control
and operational efficiency.

Deep Learning

We harness the power of
deep learning to create
intelligent systems that
improve over time,
unlocking new possibilities
in data analysis, pattern
recognition, and predictive
modeling.

Artificial Intelligence

Artificial Intelligence at
Acclivis Technologies
stands as the bedrock for
smarter, more intuitive
solutions that transform
data into actionable

IoT

Our IoT services enable
seamless connectivity and
smart device management,
fostering the development
of interconnected
ecosystems for smarter
living and efficient
operations.

insights, propelling
businesses into a new era
of decision-making.

Industries We Serve

Automotive

Experience the Future of Driving with Our Advanced Driver Assistance System (ADAS).

Industrial Automation

System design, System Modelling, Sensor Integration, Motor Control systems, IoT connectivity enhancement.

Retail

People counting, Behavioral Analytics, Retail Analytics and monitoring, Crowd Monitoring.

Consumer Electronics

Re-engineering of existing systems, hardware design, firmware design, BOM optimization and feature enhancement.

Medical & Healthcare

Firmware design, Camera based patient monitoring, Blind Assistance system, Camera based remote diagnostics.

Security & Surveillance

Predictive Analysis, Behavioral Analytics, Object Detection, Incident Detection, Vision-based fire detection.

Why ACCLIVIS?

Single-Stop Solution Enabler

Strategic Partnership

Experienced Team

Some of Our Esteemed Clients

JUXTA™

Bruviti
PREDICTIVE SERVICE ANALYTICS

Trimble

P3 Acclivis

Acclivis is research-oriented high-end services company in systems engineering, embedded services, machine vision, deep learning, artificial intelligence & iot.
