Dear Rahul Somesh,

We hope you are enjoying your ACM Student Chapter Membership. ACM is "on the ground" in India with the [ACM India Council](#). Our team of leading Indian computer scientists from academia and industry is spearheading the expansion of ACM's high-quality technical conferences, chapters, and services for computing students and professionals in India. Our aim is to welcome the talent from our vibrant region, and to address the challenges facing India's computing community.

In keeping with this goal, and on behalf of the ACM India Council, I invite you to [join ACM](#) and our community of more than 100,000 members worldwide at a deeply discounted rate of 900 INR payable in rupees. Please feel free to contact us at acmindia@acm.org, or call Vikas Sawant, at +91 20 30243000, should you have any questions on payment in rupees.

ACM offers a growing array of programs and services for ACM Student Members that keep your skills at the cutting edge of computing:

ACM Publications: [XRDS](#) - *the magazine for and by students*; [Communications of the ACM](#) - the most respected publication in computing.

ACM Learning Center: Tech Packs of customized bibliographies on foundational knowledge in current computing topics, compiled by experts; 1,200 online technology books from quality publishers and 4,500+ online technology and business courses; Learning Paths for expertly guided entry points into popular programming languages and other technologies.

ACM Career & Job Center - resources plus e-Mentoring relationships to broaden computing horizons.

Student Academic Initiatives - free software packages from Microsoft and Computer Associates.

Visit the [ACM India Council](#) pages and join ACM as a Student Member: [Join today](#)

With Best Regards,

P J Narayanan
Co-Chair
ACM India Council
